

March 2007

Dear Fellow Adrian College Parent,

I am excited to be writing you on behalf of the Adrian College Parent Council to enlighten you of a wonderful opportunity that we have to help our children succeed in their goals.

The Adrian College Parent Council, in conjunction with the Adrian College Office of Career Planning, is reaching out to the AC parents for their help and support in establishing internship programs for our AC students. We know that many of you are in careers and professions or have strong ties with businesses throughout your communities who are able to open their door and sponsor an internship for one or more of our students.

Being parents, and knowing the expectations that our children will be facing after graduation, sponsoring an internship for a student will allow them to not only obtain valuable knowledge in their area of interest and college credit, but it will also give them a leap of hope and faith to add on their résumé or application they've had past experience in their area of interest. We've been there! We know how valuable experience can be in getting your foot into the doorway of opportunity.

So if you are a business owner, and/or a career person and you are available to open the door to one or more students to train, and earn college credits then we need to hear from you. If you know of any businesses, or business owner, or career professionals who would be happy to consider offering an internship to our students then we need to hear from you.

We are encouraged by knowing that all of you join us in wanting to provide the best opportunities possible for the largest contribution we will make to the future of our communities and to society, ***Our Children.***

Respectfully,

Sandra Dixon
